📍 Hazi Badshamia Road No-06, New Town, Matuail, Demra, Dhaka    🔗 LinkedIn

### PROFESSIONAL SUMMARY

---

Motivated Software Quality Assurance Engineer with 4 + years of hands-on experience in manual testing, test automation, API testing, and performance and load testing. Proficient in modern automation frameworks, diverse testing methodologies, and contemporary programming languages to ensure delivery of high-quality and reliable software. Strong analytical and debugging skills, reinforced by solving 350+ algorithmic problems on competitive platforms. Passionate about tackling challenging environments, enhancing QA processes, and contributing to high-performing Agile teams with a focus on continuous improvement and quality excellence.

### WORK EXPERIENCE

---

<b>Software QA Engineer, JustGo</b>	07/2024 – Present
<ul style="list-style-type: none"><li>• Perform software quality assurance and testing to maintain high product standards.</li><li>• Collaborate with cross-functional teams to enhance product performance and reliability.</li><li>• Design and implement test automation scripts using Playwright, improving overall testing efficiency.</li><li>• Integrate automated test suites into CI/CD pipelines (Azure Pipelines) for continuous quality assurance.</li><li>• Conduct functional, regression, and usability testing for iOS and Android mobile applications on real devices and simulators/emulators.</li></ul>	
<b>Software QA Engineer, EchoLogyx Ltd</b>	03/2024 – 06/2024
<ul style="list-style-type: none"><li>• Conducted A/B testing to identify user-friendly and high-performing design and feature variations, supporting data-driven product decisions.</li><li>• Executed a wide range of manual and automated testing techniques to strengthen software reliability and ensure smooth release cycles.</li><li>• Collaborated closely with developers and product teams to resolve defects efficiently and maintain high product quality.</li></ul>	
<b>Senior Software QA Engineer, Unidevgo Software Solutions Ltd.</b>	12/2023 – 03/2024
<ul style="list-style-type: none"><li>• Designed and implemented Playwright-based automation scripts to increase testing speed and coverage.</li><li>• Ensured high-quality releases through comprehensive testing strategies, including API testing and load testing with K6.</li><li>• Specialized in UI automation, regression testing, and detailed test planning.</li></ul>	
<b>Software QA Engineer, Unidevgo Software Solutions Ltd.</b>	01/2022 – 11/2023
<ul style="list-style-type: none"><li>• Performed software testing and quality assurance tasks to verify system functionality and stability across releases.</li><li>• Conducted API and load testing using Postman, JMeter, and K6 to ensure reliability and performance under stress.</li></ul>	

**Software QA Engineer, 6sense | High Tech Software Agency**

09/2021 – 12/2021

- Executed multiple testing methodologies to validate system functionality and performance.
- Identified, documented, and reported defects to enhance overall product stability.

**EDUCATION**

---

**B.Sc. in Computer Science and Engineering,**

2017 – 2021

*Daffodil International University, Dhaka, Bangladesh*

Dhaka, Bangladesh

CGPA: 3.03/.00

**Higher Secondary Certificate (Science),**

2016

*Milestone College, Uttara, Dhaka, Bangladesh*

Dhaka, Bangladesh

GPA: 5.00/5.00

**Secondary School Certificate (Science), Comilla Zilla School, Comilla, Bangladesh**

2014

GPA: 4.94/5.00

Comilla, Bangladesh

**TECHNICAL SKILLS**

---

**Software Testing & QA Automation Frameworks**

- Extensive experience across the full Software Playwright.
- Testing Life Cycle (STLC) and strong understanding of SDLC processes.
- Proficient in Unit, Integration, Functional, System, Regression, Sanity, Smoke, and Exploratory testing with a focus on coverage and quality.
- Skilled in designing and executing comprehensive API testing strategies to validate system integrity and reliability.
- Hands-on expertise in performance and load testing using K6 and JMeter to assess system behaviour under real-world conditions
- Adept at developing well-structured test cases, test plans, and documentation aligned with project requirements.
- Strong background working in Agile/Scrum environments, ensuring smooth collaboration and continuous quality improvement throughout sprints.

**Web Technologies**

HTML, CSS, Bootstrap, Media Queries.

**IDEs & Editors**

Code::Blocks, PyCharm, Visual Studio Code, IntelliJ.

**QA Tools**

Postman, JMeter, K6.

**Version Control**

Git, GitHub, Azure DevOps.

**Programming Languages**

C/C++, Python, Java, JavaScript, TypeScript.

**Project Management Tools**

Jira, Asana, Trello, Microsoft Azure DevOps.
